## *Making tracks to defeat canine epilepsy.*

**Researchers have made progress—let's keep the momentum going!** The researchers are continuing in-depth analysis to find the genetic mutations contributing to epilepsy in Australian Shepherds in three chromosome areas that have been identified. We need your help! New blood samples from affected dogs are needed. Please send in a blood sample from your dog with idiopathic/primary epilepsy for Dr. Ned Patterson's Aussie Epilepsy research at the University of Minnesota. Please make a donation today to Toby's Foundation to help us in the fight against canine epilepsy. Your donations are needed and are tax deductible to the fullest extent of the law. Please see the information below to submit a blood sample from your dog and to make a donation on line or by mail. Thank you!

## *Toby's Foundation*

Submit blood samples: [www.tobysfoundation.org/samples.htm](http://www.tobysfoundation.org/samples.htm)

Online donations: [www.tobysfoundation.org/Donors.htm](http://www.tobysfoundation.org/Donors.htm)

Mail donations to: Toby's Foundation, Inc., PO Box 7321, Laguna Niguel, CA 92607

Your gift is tax deductible to the extent allowed by law.

Please check with your employer about a matching gifts program.
