

Ad by Ashley M. Hays, Picture by Lynne Skinner

For some dogs there isn't enough time to smell the *roses*.
This dog was gone by her 3rd birthday.
Epilepsy research needs your help.

When the current grant for Aussie Epilepsy research ends in September 2010 more funding will be needed to continue to move the research forward. We are working to raise these funds now. We need your help! Please make a donation! Before the current grant ends Aussie samples will be analyzed using a more powerful SNP array. Blood samples from affected dogs and dogs 6 years and older who have never had a seizure are needed. Thank you for your help in the fight against canine epilepsy.
